Myself is a reflexive pronoun, as are himself, herself, and themselves. They are to be used when the object refers back (reflexively) to the subject. If you're using a -self in the object, and the my/him/her/them to which you attached the -self is NOT the subject, then you're using it wrong.

He and I, me and him - Pain in the English

"He and I" is a subject that can be replaced with "we," so you'd use it at the beginning as the subject of the sentence. "He and I went to the zoo the other day" would be an example of its use as a subject. "Me and him" is technically incorrect, as you should always be listed at the end of a list.

It's from linguist Noam Chomsky, who, in his 1986 book *Barriers*, proposes that compound phrases like you and I and he and she are barriers to the assignment of grammatical case, meaning that their elements don't get assigned case individually, but that the phrase as a whole is what gets assigned case instead; the individual words in the phrase can look like they're in the object or subject position, or are even reflexive, i.e. myself, herself, or themselves. Chomsky's idea remains a theory ...
